

DAY 1	1	2	3
8am	(1-1) Legacy Migration, the Efficient and Secure Way – FONEX Data Systems	(1-2) Time Shifted TV Viewing Is the New Default – Innovative Systems	(1-3) Last Mile Technology Update – Viavi Solutions
9am	(1-4) Designing Wireless Networks for Speed and Reliability – Metageek	(1-5) Safe Installation of Outside Plant Fiber Optic Systems – Fibre Optic Association	(1-6) Infrastructure Risk Management for Damage Prevention – Planview Utility Services
10am	(1-7) (change) DOCSIS 3.1 – SCTE/ISBE	(1-8) The Intelligent Community Movement in Canada – Clearcable Networks	(1-9) Proactive Network Maintenance 2.0 – Akleza
11am	(1-10) Converging Wireless Fronthaul/Backhaul and FTTH Networks – Commscope	(1-11) Testing and Cleaning of Fibre – EXFO	(1-12) 11:15am WORKSHOP: FTTH Testing Splicing and Troubleshooting Techniques – Telonix Communications
	N/A	N/A	
12noon	LUNCH - SPONSORED BY POWER & TEL		
DAY 2	1	2	3
8am	(2-1) Demystifying NFV and Offering NFaaS – FONEX	(2-2) New Last Mile Fiber Delivery Options – Clearfield	(2-3) Tower and Antenna Safety – STAC / The Structure, Tower & Antenna Council
9am	(2-4) Wi-Fi Troubleshooting with Spectrum and Packet Analysis – Metageek	(2-5) Impact of NBase_T on Your Network – Commscope	(2-6) FTTH GPON: Work Faster Not Harder – EXFO
10am	(2-7) More fibers in Less Space: Continuing Advances in Fiber Density – OFS	(2-8) Best Practices for Fiber Optics Testing using Fiber Microscope and OTDR – Viavi Solutions	(2-9) Network Telecom Facility Energy Analysis Exercise – Pan Sciore, Consultant
11am	(2-10) Everything You Need to Know about OTDR – EXFO	(2-11) Building an Access Platform for Future Growth – Technetix	(2-12) Locating on Autopilot: How Technology Can Help – Norscan Instruments
12noon	LUNCH - SPONSORED BY TELUS		
1pm	N/A	(2-13) WORKSHOP: Future-Proofing Your Network: Modular & Scalable Solutions for Today & Tomorrow – Technetix and Telonix Communications	N/A
